JANESVILLE, MONDAY, MARCH 31.
STATE OF WISCONSIN.
A PROCLAMATION
BY THE GOVERNOR.

In conformity with law, I, William D. Hoard, Governor of the State of Wisconsin, do designate
Wednesday, April 30th Next,
as Arbor Day, and recommend that all public schools and colleges of the state observe the same by suitable exercises, having for their object the imparting of knowledge of horticulture, in the department known as arboriculture, and the adornment of schools and public grounds.
It is testimony whereof, I have hereunto set my hand, and caused the great seal of the state of Wisconsin to be hereunto affixed. Done at the capital, in the city of Madison, this 15th day of March, A. D. 1890.
WILLIAM D. HOARD.
By the Governor:
ERNEST G. TIMME, Secretary of State.

WORK FOR TO-MORROW.

It is hoped that every republican in Janesville will make it his duty to vote to-morrow. The republican candidate for treasurer will receive the full vote of the city. The next office in importance is that of city attorney, and Colonel Gullin is the republican candidate. He is a bright, well read, and capable young lawyer, a man of splendid integrity in all things, and his election will be a credit to the city. One of the most important offices in the city is that of school commissioner, and the candidate at-large is Charles L. Valentine, whose qualifications and fitness for the position will be acknowledged by every voter in the city. He is not only a man of broad intelligence, but his judgment on any question pertaining to school matters will be unerring. No one will doubt the unqualified ability of Mr. John Nichols for the office of justice of the peace. He is thoroughly competent and is especially fitted for such an office. So is George Hanthorn, for street commissioner, whose ever watchful eye will see that the streets will never lack attention under his administration. The other candidates placed in nomination by the republicans are men of exceptional personal integrity and excellent business qualifications, and every one of them is freely entitled to the solid vote of the republican party.

Let the republicans make a special effort on to-morrow to secure a full vote, and when that is given there follows a republican victory.

ABOUT NEWSPAPER COURAGE.

There recently appeared in Harper's Weekly an article on Mr. George Jones, the publisher of the New York Times. The instant of the sketch was to show the admirable moral courage which Mr. Jones displayed in 1871 in exposing the Tweed ring frauds upon the city treasury. So far the article is excellent in purpose for the history of that exposure made the Times a great moral newspaper. But before showing how the mighty has fallen, let us give Mr. Jones credit for what he did in 1871. When the corruption of the Tweed ring became known, it was offered to a certain daily which refused to publish it. It was then offered to the Times, and Mr. Jones accepted it. When it was learned by the ring that the Times would publish the exposure, Tweed sent a man to labor with Mr. Jones. A meeting took place in a lawyer's office where he met Richard B. Connolly, the controller, and partner with Tweed in the great crime, and there the following remarkable conversation took place:

"I don't want to see this man," said Mr. Jones, and he turned to go out of the place.
"For God's sake," exclaimed Connolly, "let me say one word to you." At this appeal Mr. Jones stopped. Connolly then made him a proposition to forego the publication of the documents he had in his possession, and offered him an enormous sum of money to do this. The amount of this offer was \$500,000! As Connolly waited for the answer, Mr. Jones said:
"I don't think the devil will ever make a higher bid for me than that."
"Connolly then began to plead, and drew a graphic picture of what one could do with \$500,000. He concluded by saying:
"Why with that sum you can go to Europe and live like a prince."
"Yes," said Mr. Jones, "but I should know that I was a rascal. I cannot consider your offer, or any offer not to publish the facts in my possession."
"A few days thereafter the proofs of the frauds came out in the Times, and were flashed to the four corners of the globe."

The admirable courage was displayed when the Times was a republican newspaper. How is it now controlled by a magnum spirit? I may not be fair to shadow its glory of 1871 by recent exhibitions of party treachery, glaring inconsistency, and moral cowardice, but inasmuch as Harper's Weekly was dealing with the Times present as well as future, and so how Mr. Jones' moral courage stands to-day.

In the early part of 1884 the Times had occasion to deal with Grover Cleveland as governor of New York, in which it printed some facts of history in regard to gubernatorial action. The Times was severe, but just—in its criticism, and it went on to write Mr. Cleveland down as the smallest statesman in the Empire state. But in a few months after, when Cleveland was nominated for the presidency, the Times exhausted its ability in trying to make its readers believe that Cleveland was the greatest reformer and statesman of the day. What a wonderful change in Mr. Cleveland in five months! But later than that, when some telephone suit came up for trial in which the Cleveland administration was concerned, and as

effort was made to secure the influence of some New York papers for the administration. These papers did not accept the price offered for the publication of a certain article which defamed the government; but how about the New York Times? Its moral courage departed with its republican principles.

THE SENATE AND TRUSTS.

Senator Sherman, in response to the dominant sentiment of the country, introduced in the senate an anti-trust bill. It was intended to prevent the unrighteous organizations called trusts from using an influence which might be detrimental to the interests of the people. Senator Sherman and Senator Ingalls, and several others, had carefully examined the question, and the judgment of the senators was that the bill should pass that the growing power of trusts with their relentless grasp and unlimited greed were a positive harm to this country.

But all the senators did not think as Sherman and Ingalls did, and when the bill came up a vote was taken to refer it to the judiciary committee, which means, to use the remark of Senator Nance, to consign it to "museum of senatorial literature." When the senators voted to bury a bill and they have not the courage to kill it outright, they send it to the judiciary committee, for to that committee there is no such thing known as a day of resurrection to a bill when it is so referred for the purposes of shelving it. As Colonel Sellers always preferred the word "kill" to that of "murder," because it was a milder word, so the senators prefer to send a bill to the graveyard of the judiciary committee rather than kill it because it is a milder way to deal with it, although the effect is the same in either case.

It is somewhat interesting to note the vote on the slaughtering of this bill. There were 22 democrats and 9 republicans to vote down the bill to prevent trusts. Nothing better could be expected from the 22 democrats, but better things were looked for from the republicans. Not one of the Wisconsin senators voted to kill the bill. The vote for the bill included 22 republicans and only 6 democrats. This analysis of the vote shows how the two parties stand on the question of abolishing trusts. It is said a new bill will be framed—not quite so sweeping as the Sherman bill—and that there is some hope of its passing.

There are some startling stories told by the figures given below. These figures show the number of defaulting democratic state treasurers within a short time, and the amounts they have stolen:

Louisiana	\$78,000
Georgia	20,000
Kentucky	20,000
Tennessee	40,000
Missouri	150,000
Mississippi	315,011
Maryland (estimated)	100,000
	\$3,581,212

These figures are published for the benefit of republicans. Our democratic friends will take no interest in the matter.
Mr. Charles W. Felker, the Oshkosh democratic lawyer, makes the statement that "the average Milwaukee democrat has no more brains than a can of lard." This is a serious charge, but whether it is correct or not we do not know. It is a matter for the democrats themselves to settle. It is not a republican funeral.

There is a good deal of jolting being done by the Milwaukee democrats. They don't like the platform, and have come out openly for the republican candidate for mayor.

Lumbago.

Gen'l. G. B. Spauld, member of congress from New York city, writes: "It is a public duty I perform when I testify to the remarkable curative power of ALLOCOCK'S POROUS PLASTER. For several years I have been at times troubled with violent attacks of lumbago. They would last for several weeks at a time, and the pain would reach from the lumbar region, not only to my feet, but to my finger ends. Some months ago I had a most severe attack, and was confined to my bed, almost paralyzed. I felt most discouraged, and thought of resorting to electric shocks, when Senator Nelson sent me one ALLOCOCK'S POROUS PLASTER. I immediately applied three—one over the kidneys, one on the small of my back and one on my hip joint, where I had considerable acute pain. The effect was simply wonderful. In six hours I was able to sleep, the violent pains having mostly ceased. I continued to wear the plaster for some days, when I felt I was cured. I kept them on for nearly a month, as a matter of precaution. Beware of imitations and do not be deceived by misrepresentations. Ask for ALLOCOCK'S and list no solicitation or explanation induce you to accept a substitute."

ALLOCOCK'S CORN AND BUNION SHIEL'S effect quick and certain relief.

Stock Dying from Starvation.
CHARLESTON, W. Va., March 31.—Information from Boone, Lincoln and adjoining counties is to the effect that hundreds of cattle are dying for want of food. Grain is very scarce and the roads are so bad no food can be hauled into the counties. The aggregate loss will be large.

Earthquake Shock in New Hampshire.

CONTOCOCK, N. H., March 31.—A shock of an earthquake was felt last night shortly after 10 o'clock. Most of the people were in bed and very sensibly noticed the positive though brief rumble and motion. It was also noticeable in several surrounding towns.

"Who, did you say, was to be the next president?" "Oh! I don't know and don't care. I'm not looking for president—I'm looking for a bottle of Salvation Oil. It kills pain every time." 25 cents.

One of our most estimable citizens may be thankful for the introduction of Dr. Bull's Cough Syrup, for its timely use has saved his life. For insipient consumption it is a certain remedy. Price 25 cents.
THOSE UNHAPPY PERSONS who suffer from nervousness and dyspepsia should use Carter's Little Nerve Pills, which are made expressly for sleepless, nervous, dyspeptic sufferers. Price 25 cents.

AT LEAST 100 KILLED.

THE NUMBER OF THE DEAD AT LOUISVILLE.

Hundreds of Maimed and Dying Victims—The Work of Rescue—The Financial Loss.

LOUISVILLE, Ky., March 30.—The yellow floods of the Ohio, lapping the tops of the highest levees and threatening death and destruction to the towns along the river banks, met a greater horror than any to which it had ever given birth as it rolled on its way to the Mississippi. In the rushing of a mighty wind a giant of the prairies of southern Illinois, swept up the swollen stream, and in less than three hours wrought damage which months of work can not repair, and slew scores, perhaps hundreds of human beings.

In Louisville alone at least one hundred lives were lost and meager reports of still more ominous silence indicates an awful loss of life in other towns. Whole villages are said to have been leveled to the ground, and there is reason to believe that when news from these stricken hamlets comes to the public the death-list will reach appalling proportions.

First reports led to the conclusion that the cyclone which laid so much of Louisville in ruins and the wind storm which is its way across Illinois were not the same, and it is difficult now to explain the wide area of country visited. A general storm raged over most of that part of the United States between the Mississippi river and the Alleghenies, and north of the Ohio Thursday evening, and it is probable that there were several cyclones, tornadoes and hurricanes.

The well-known eccentric movements of cyclones account for the distance between the points affected in southern Illinois and along the Ohio river, and it seems likely that the cyclone which struck Louisville and the one which a few hours earlier had whirled over the southern part of Illinois were identical.

Falling upon the country a few miles east of the Mississippi between Cairo and St. Louis, it rose again into the air whence it came somewhere east of Louisville. Between these two points its course is only two plainly marked and its continuous progress established. Special dispatches show that the cyclone was first felt at Nashville, Carbondale, and Murphysboro, three towns lying in a line almost north and south. The extreme distance between these towns is about forty miles.

Tearing its way across the State to Olney, not far from the Indiana line, it seems to have turned southward, for it was felt at Evansville, Ind. In the next morning the city of St. Louis, on the Ohio river, had been half wrecked, one person killed and several injured, and \$250,000 worth of property destroyed. Up the Ohio the cyclone raced and, crossing into Kentucky, laid the country in ruins.

The board of trade of Louisville has made a canvass of the ruined district and the estimate of seventy-five persons killed is obtained from the returns. Other estimates place the loss of life much higher, and it is not improbable that the story told by the ruins will bear them out.

The board has gone to work with a splendid courage that will command the admiration of the whole country to relieve the needy and repair the terrible ruin the city has suffered. It sends out a statement that the loss will not exceed \$2,000,000, and says that though the calamity is a great one the residents of the city feel able to cope with it unaided. That aid will be furnished if needed or desired is evident from the ready proffers from neighboring States and cities. It is likely that this generous assistance will be required by the smaller towns and villages, in which the people will be less able to face the disaster which has overtaken them.

Destruction at Grand Rivers.

Paducah, Ky., March 31.—A terrific cyclone struck the little town of Grand Rivers, twenty-seven miles east of this city, and nearly swept the place away. Grand Rivers is the new manufacturing town just about being established by Boston capitalists. The cyclone came upon the place preceded by a heavy fall of hail. It came quickly and lasted but a few moments, but in that time a dozen houses had been leveled and as many more wrecked. Mrs. Mattie Beck was hurled a distance of 200 yards and killed, and John Etheridge, a boy, was crushed to death by a falling house. Nineteen others were injured, but only Jeff Coons seriously. Houses were swept like kindling wood from over entire families, and no one hurt. A terrible roar preceded the cyclone, and followed its departure. Passing from Grand Rivers the cyclone struck the railroad bridge over Cumberland river half a mile beyond and tore away a span and toppled the draw into the river, thus cutting off all travel. All telegraph lines were destroyed, and only through a relief train sent out from this place could the facts be learned.

At Farmington, twenty-five miles south, there was great damage to buildings from the same storm, but no loss of life. At Metropolis there was also great damage. Rumors are that many houses were destroyed and several persons killed. A tug, the packet between there and here, is also said to have been swamped. In Paducah the storm was light, doing no damage of consequence, but no telegraph lines were left. It is thought the story as to this section is not half told.

Loss of Life at Eminence, Ky.

EMINENCE, Ky., March 31.—The two-story frame residence of Richard Anderson, one and a half miles south of town, was unroofed and a large barn destroyed by the cyclone. It then caught the two-story brick mansion of James H. Drain, wholly sweeping away the upper story. Then it caught buildings in the yard sweeping them from existence. One of these was occupied by a tenant, Joseph Kinney and family. His little 3-year-old daughter and his brother-in-law, Lou Maddox, were killed outright. Kinney was probably fatally injured. His wife and younger child were less bruised.

NARROWLY ESCAPED DEATH.

Two Lady Teachers Attending a Convention at Joliet Overcome by Gas. JOLIET, Ill., March 31.—The Hotel Munroe people were thrown into feverish excitement about 1:30 o'clock Saturday morning over the reported death of two young ladies who turned off the gas in one of the rooms and then turned it on again. Since the Jessie White case the people here are very sensitive over such reports, and the occupants of the hotel, which was in front of the one in which Miss White shot herself, were at once aroused and a first-class sensation was expected. Investigation developed the fact that two young ladies, teachers from Wallingford, who came to Joliet to attend the Will county oratorical contest Friday night, accompanied by two male teachers, had retired to their rooms about 10:30 o'clock, after the contest was over. The names of the young ladies are Laura Schweder

and Blanche Nelson, both of Wallingford, and the gentlemen, B. Broderick of Wallingford and Lucius Evans of Wilton Center. The proprietor carefully explained to the young ladies about the gas, and they were so particular after retiring that one of them, who thought she had and did turn it off, told the other to get out of bed and make sure of it. She got out and turned it on about 1:30 o'clock.

The proprietor had retired, but detecting the smell of gas and hearing groans from the direction of the young ladies' room burst open the door and found them asphyxiated and nearly dead, having been under the influence of the gas three hours. By heroic treatment and the aid of a physician, and by holding the heads of the young ladies out of the windows of another room, they were restored. One of them was so nearly dead that her extremities were powerless and stiff. They are still in a precarious condition and it cannot be said whether they will get well or not.

A Virginia Town Almost Wiped Out. BALTIMORE, Md., March 31.—A special dispatch states that the town of Mitchell's Station, about ten miles from Culpepper, Va., was almost totally destroyed by fire yesterday. It started in the saw-mill and the heavy rain at the time quickly carried the flames to the Virginia Midland railroad depot and the houses around about. Insurance trifling.

Six Towboat Hands Lost.

MEMPHIS, Tenn., March 31.—Word has just been received that the towboat Nail City was caught by the cyclone Thursday night at Gayoso, 135 miles above here. The towboat was lost, including coal, one fuel and two produce barges. Six of the crew were lost. The names are not given. The boat was uninsured.

WERE IN GREAT PERIL.

THRILLING EXPERIENCE OF THE CITY OF PARIS PEOPLE.

Close Call for the Passengers on the Boat-
Landed Vessel—News From Other
Lands.

QUEENSTOWN, March 31.—The steamer City of Paris, from New York, arrived here Saturday, three days overdue. All on board were well.

The City of Paris was sighted 25 miles west of Crook Haven with her machinery disabled. She was being towed by another steamer.

The American steamer Ohio, Capt. Sargent, from Liverpool for Philadelphia, arrived off Crook Haven at 9 o'clock Saturday morning and signaled that the British steamer Aldersgate, Capt. Cheshire, from Galveston, March 7, for Liverpool, was towing the City of Paris.

The Ohio then put back to assist in bringing the disabled steamer into port, which was accomplished at 4 o'clock in the afternoon.

The accident by which the City of Paris was disabled occurred on Tuesday and was caused by the breakage of the low-pressure cylinder of the port engine, the flying pieces of metal forcing the bulkhead and disabling the starboard engine. The passengers became panic-stricken when they found that the ship was making water and that there was a possibility of the vessel foundering.

The water, which flooded the engine compartment, was forced through the injection tubes, which, it is alleged, the engineer during the excitement had neglected to shut. The starboard engine was shattered almost to pieces, the port engine-room was filled with upward of 2,000 tons of water, and the port engine was entirely useless.

Terrible consequences would have ensued but for the bravery of the second engineer, who, at the risk of his life, enveloped as he was in hissing steam, managed to shut off the steam, thus saving the machinery from total demolition, which would have happened had the engines continued working. He then escaped unhurt.

Statements by passengers, which are similar to other accounts of the accident, are to the effect that there was a loud crash followed by an explosion. The ship quivered and the engine stopped. The vessel leaked rapidly from the hole in her bottom. The officers calmed the excited passengers. The conduct of the crew was admirable. The weather was fine and there was no wind. During the sixty hours that the steamer drifted she kept showing distress signals, sending up rockets and burning flares.

On Friday morning the Adriatic was sighted. She offered to convey the passengers to New York, but the offer was declined. The Adriatic then proceeded and sent the Aldersgate to aid the City of Paris. Three tugs joined the disabled vessel to accompany her to port. The passengers held a meeting at which they returned thanks to Providence for their delivery. They also expressed their appreciation of the exemplary conduct of the captain and crew and raised a subscription of \$200 for the Liverpool and New York Mariners' Institute.

BISMARCK LEAVES BERLIN.
Overwhelming Demonstration by the People at the Leave-Taking.

BERLIN, March 31.—The departure of Prince Bismarck for Friedrichsruhe was the occasion of the greatest public demonstration in Berlin since the return of the victorious troops in 1871. The only thing lacking was an official display of hunting.

The sight of the crowd seemed fairly to take away Prince Bismarck's breath and he appeared to be making a strong effort to repress his emotions. The interior of the railway station was heaped with flowers. On a cushion lay the Emperor's tribute, a great wreath of violets encircling a laurel wreath. The Emperor sent a basket of elder-flower blossoms and magnificent roses.

Several times a great cry arose, "Come back again!" which seemed to pain the Prince. Then the "Watch on the Rhine" was started and awakened the deepest emotion, while just before the departure of the train "Deutschland, Deutschland Uber Alles" was sung.

The officials tried to exclude the public from the station, whereupon hundreds rushed to buy tickets for Spandau. Soon all the tickets were sold, then a raid was made on the next station, the fare to which is a crown. The Prince was half pushed half lifted from the platform. The police were utterly powerless to keep order.

Three Men Burned to Death.
ST. PETERSBURG, March 31.—A train of thirty-eight cars loaded with petroleum caught fire yesterday near Batoum and was completely destroyed. Three train hands were burned to death.

Thousands of Laborers Quit Work.
BARCELONA, March 31.—The strike here is assuming serious proportions. Already 18,000 men have quit work.

Caprivi's Tenure Temporary.
BERLIN, March 31.—It is stated that Gen. von Caprivi is only temporary Prussian Foreign Minister.

LOST IN THE MOUNTAINS.
A Louisville Man Meets Death in a Wyoming Snow-Storm.

CHEYENNE, Wyo., March 31.—Edward Happy, son of a rich iron manufacturer of Louisville, Ky., has been lost in the Big Horn mountains for the last three weeks. He lost his way in a storm while crossing a divide between two ranches twenty miles apart.

A searching party found his horse last week, with saddle and blankets gone. Happy had evidently taken the blankets and saddle as a covering to protect himself from the storm and turned his horse loose. The chances of recovering the body before the snows are gone from the mountains are slight.

Ex-Congressman Cornell Dead.
KINGSTON, N. Y., March 31.—Thomas Cornell, one of the oldest railroad and steamboat men in the State, died yesterday of pneumonia after a few days' illness. He was born at White Plains, Westchester county, in 1814. He was a self-made man and leaves a large fortune. In politics he was an ardent Republican, and he was a warm personal friend of Secretary Blaine. He was a delegate to the Chicago convention which nominated Mr. Blaine. He represented his district in the Fortieth and Forty-seventh Congresses.

Peculiar
To itself in many important particulars, Hood's Sarsaparilla is different from and superior to any other medicine.

Peculiar in combination, proportion and preparation of ingredients, Hood's Sarsaparilla possesses the full curative value of the best known remedies of the vegetable kingdom.

Peculiar in its medicinal merit, Hood's Sarsaparilla accomplishes cures hitherto unknown.

Peculiar in strength and economy—Hood's Sarsaparilla is the only medicine of which can truly be said, "10 doses one dollar." Medicines in large and smaller bottles require larger doses, and do not produce as good results as Hood's Sarsaparilla.

Peculiar in its "good name at home"—there is more of Hood's Sarsaparilla sold in Lowell, where it is made, than of all other blood purifiers.

Peculiar in its phenomenal record of sales abroad, no other preparation has ever attained such popularity in so short a time. Do not be induced to take any other preparation. Be sure to get

The young ladies of St. Agnes Guild, of Trinity parish, wish to announce to the public that they will give one of their suppers on Easter Monday, April 7th, at Columbia hall. Particulars later.

Mr. E. J. Kent has received a telegram from his son-in-law, who is sick at Louisville, Kentucky, saying that the rheumatism did not pass through that portion of the city. Mr. Peachin has been very sick, but is now better.

Dr. Coffee's rooms were crowded Saturday and to-day. He performed five surgical operations Saturday afternoon, and Sunday many were turned away incurable; many others relieved by a single treatment. He will be here until Saturday night, April 5th, and return each month.

Dr. Frank Pember is the republican candidate for school commissioner in the fourth ward. He will make a most capable member of the board of education, and should receive the vote of every one in sympathy with our public school system. Vote for Frank Pember.

The A. O. U. W. will give a public dance at their hall on the evening of Easter Monday. The party will be for the benefit of the A. O. U. W. and the proceeds will go to help pay to entertain the Grand Lodge of that order which meets next May. Tickets 50 cents and elicited.

The republicans have placed in nomination as candidates for constables in the several wards: Messrs. Daniel Terwilliger, in the first ward; A. K. Outte in the second; The L. Acheson, in the third; John F. Drake, in the fourth, and W. G. Brandt, in the fifth. All are good men and should be elected.

Place no reliance on sensational political reports that may be put in circulation to-morrow by the democrats. They may take advantage of an occasion for denial, and circulate that which they will be compelled to take back after election. Pay no attention to such reports. Stand by your guns, and victory is certain.

The republicans of the second ward have named S. C. Burnham for the position of school commissioner of that ward. Mr. Burnham has heretofore been a member of the school board, is thoroughly competent to fill the office, and besides he is in sympathy with the free public schools of the state. No better man can be elected to the position.

The Woman's Foreign Mission Circle of Court Street M. E. church, will hold their monthly meeting and "missionary tea" at the home of Dr. B. W. Forsworth, 208 South Jackson street, on Wednesday of this week, April 21. This is the "thank offering service." Bring your envelopes with an offering enclosed and a text written thereon. Be prompt at three o'clock in the afternoon, for the programme. Friends of the society cordially invited to enjoy the "tea" with them.

It is rather amusing to listen to some of the excuses given by parties in opposition to the Bennett law. One German fellow citizen, who had been in the country long enough to know better, was arguing against the law this morning in front of the postoffice. His principal reason for opposition was that in case the law remained, "he could not have his children confirmed in the church," as the law prohibited him from doing so. Alderman Horn was quietly listening to the argument, but never offered to put his countryman on the right, feeling confident that he had one vote "solid" for this democratic ticket.

The republicans have studiously refrained throwing mud at their opponents during this municipal campaign. The candidates of both political parties have been before the voters for two weeks, and their merits have been carefully considered. The Gazette believes that no republican candidate has suffered in the least by this comparison with his opponent. The republicans have se-

lected excellent men, and they should all receive the united support of republicans to-morrow.

One third ward democratic candidate, who has heretofore been rather forward in "putting up his money" on election results, made rather a bad break this morning. He was in a cigar store, where several republicans had gathered. He made a proposition to bet ten dollars on his election, but when a live republican stepped up and offered to take the wager and go him something better, in the way of \$50 to \$25, he quietly put his money in his pocket with the remark, "I will see you after election."

The republican candidates for supervisor in the several wards are men of standing and experience in public business—they are W. F. Carle in the first ward, O. F. Nowlan in the second; Finner Kimball in the third; John M. Whitehead in the fourth, and James G. Wray in the fifth. Better representative men cannot be found in the city. They should all be elected by handsome majorities.

Messrs. Carle, Nowlan and Kimball have been members of the county board several terms, and their knowledge of county affairs is of importance and value to the people of the city.

UNION TEMPERANCE MEETING.
The Regular Monthly Union Temperance Meeting Last Evening at the Congregational Church.

Some twelve to fifteen hundred people attended the Union Temperance meeting last evening at the Congregational church. The meeting was addressed by the Rev. S. P. Wilder, of the Congregational church; Rev. E. L. Eaton, of Court Street M. E. church; Rev. M. Evans, of First M. E. church; the Rev. Dr. M. G. Hodge, of the Baptist church, whose congregations with that of the Presbyterian church, composed the large audience. The remarks of the gentlemen were very conservative. Rev. Mr. Wilder first addressed the multitude. His remarks were introductory to those that should follow. He said that the purpose of the meeting was to show the people why license should not be granted. The question at issue was not one of any particular party but the simple question of license or no license.

Rev. Mr. Eaton next addressed the meeting. He spoke very strongly against the sale of liquor. As an illustration he said, suppose a man stood on the bank of Rock river and saw ten men struggling in the water unable to reach the shore. This man plunges into the water to their rescue. While he is saving one, nine perish in his sight. Then ten more and so on. He stops and asks where all these men came from. He is told that fifty men of Janesville are permitted to stand on the bank and throw men in. That is what the saloon-keepers are doing—throwing men and boys into destruction. We work to save them; people say we are doing a good work saving one out of ten; keep on. We don't do even that. Then there is the right and wrong side; they cannot be separated. It is not right to permit men to be tempted thus.

Mr. Evans followed. One argument that is brought forward in favor of license is that it will injure the business. We do not think this is so. Saloon-keepers will not patronize merchants that do not treat at their counters, unless they are selling at or below cost. As to the fact that they help pay the taxes, where do they get the money to do it? It is like this: I tell a man I have a horse for \$500. He is surprised; inquires who looms it; I gave it to him. Any way we could better afford to pay more taxes than to board in many in the jails and build so many prisons.

Rev. Dr. Hodge spoke next. We do not grant that the rum traffic makes our city prosperous, but suppose we do for a few minutes. Are we the men to purchase prosperity at so great a price. If to murder ten men a day would make us prosperous would we do it? There was a time when stretching on the wheel was a favorite punishment of crimes. Suppose to stretch fifty women and children on a wheel every week would make our city prosperous, would we do it? Yet, if we purchase prosperity by allowing the sale of liquor to prevail we are paying such a price for it.

CLOSED THE ENGAGEMENT.

A Country Millionaire at the Opera House Last Saturday Evening.

The May Bettonne company closed their engagement at the opera house Saturday evening. The company have done a very successful business the past week. There was a good audience present and they were apparently well pleased with the performance. Miss Bettonne took the part of "Ruth" in her usual style. Mr. O. E. Hamlin took the part of "Oliver Van Buren," Ruth's lover, to perfection. G. Harris Eden as "Nathaniel C. Hugginbottom," the Bamboozler, was as funny as a man could be. George R. Robinson as the millionaire was excellent. Miss Rose Stillman as "Annastacia Wainwright," the old maid, and Miss Laura Howard as the heiress both took their parts well. They are a most excellent company and should have a full house at Elgin, where they appear next.

CIRCUIT COURT.

To-day's Proceedings Before Judge Bennett—A Divorce Granted.

The trial of the divorce action of Farmer R. Williams against Mary A. Williams was considered in the circuit court this morning. Judge Bennett denied the divorce sought, but gave to the wife, the defendant a judgment of divorce on the ground of non-support, and ordered the plaintiff to pay her one hundred and four dollars annually as alimony, and the taxable costs of the action. The custody of the minor child of the parties was given to the defendant until the further order of the court.

The motion to dismiss the garnishment proceedings in the action of Storm & Hill against Edwin Garvin, defendant, Thomas W. Lowman and B. M. Malone, Garnishers, overruled.

For the corresponding hours last year the register was 24 and 42 degrees above zero. At seven o'clock this morning the thermometer indicated 30 degrees above zero. Partly cloudy with north wind. At one o'clock p.m. the register was 40 degrees above zero. Partly cloudy with northeast wind. For the corresponding hours one year ago the register was 32 and 38 degrees above zero.

THE BEST MEDICAL WRITERS claim that the successful remedy for nasal catarrh must be non-irritating, easy of application, and one that will reach all the remote nores and ulcerated surfaces. The history of the efforts to treat catarrh during the past centuries is to admit that only one remedy has met these conditions, and that is Ely's Cream Balm. This pleasant remedy has mastered catarrh as nothing else has ever done, and both physicians and patients freely concede this fact. The more distressing symptoms yield to it.

EXPENSIVE STREET WORK.

Some Extravagant Expenditures Pointed Out by One Who Has Examined the Items.

I have read with some care and attention the report of the street commissioner as published in the Recorder. From that report and what I have seen of the streets of the city during that past summer and fall, it seems to me that one of the most important things to be considered by the electors of this city at the coming election, is whether the people of this city can afford to continue in office the present street commissioner for another term. By his report he has expended \$8,325.20 on the streets of this city. Has the city or its citizens received the equivalent of this sum in the improvement of the streets? From what I know of the streets it seems to me they have not, and that a few illustrations in each of the wards, I think, will be a fair test of the whole. Let us look at the first ward account for a moment; the largest item of expense is \$165.84 for labor alone on Jackson street; bear in mind that Jackson street in the first ward extends only from Milwaukee street to a point where it intersects Mineral Point avenue near the Tallman property. Can it be possible that \$165.84 worth of labor on that length of street would have failed to improve it? I submit to those people that have driven over or walked along Jackson street, that the citizens have not received fifty cents on a dollar on the money expended. Bear in mind that this expenditure of \$165.84 does not include material of any kind. Again I call your attention to the item of \$131.41 for labor on Prospect avenue, second ward; the labor on Prospect avenue consisted in scraping that portion of Prospect avenue between Milton avenue and the Milwaukee road, being only two blocks. The earth gathered from the scraping was used to fill a depression on the street, and yet for these two blocks of scraping and leveling of the street you paid \$131.40. I have been informed by competent judges, that they would have been glad to have taken the contract for the same work at \$40.00. Again, Bluff street in the second ward was leveled by a scraper, and the gutters cleaned. I have been informed by both republicans and democrats that the contract could have been let to responsible parties for \$100.00, yet Mr. Brown reports an expenditure of \$373.20 for labor alone. Again we see in the report, the item of \$412.00 for labor in repaving North Main street. I submit to the voters of the city that the street is not in any better condition than it was before the repairs, and that \$100 properly expended would have placed all the rubble and gravel that has been placed on North Main street would have been in a better condition than this now. South Main street is charged with \$183.32 worth of labor. I have asked farmers who travel over that highway if it had been improved or if the work done there was worth \$183.00 to the city. The answer has always been a decided no. I have heard prominent drivers who use that thoroughfare, and who are acquainted with the value of improvements to highways, say that the street had been positively damaged, and that an expenditure of \$75.00 would have placed South Main street in a good condition. Another item is Court street—\$254.08 for labor alone; the improvement consists in a filling at a large culvert on that street; the earth was hauled from a point not to exceed a block distant from the fill. I have been told by responsible parties that the work could have been done for \$150.00, yet we have paid \$254.08 for it, and the street is not in as good condition as when Mr. Brown commenced work on it. Jackson street comes in for \$442.25 worth of labor; this does not include the tile or sewer pipe used on the street. A resident in that vicinity who is responsible and competent to judge, informs me that he would have done the labor for \$100.00; but one more illustration on this line in Linn street between the fourth and fifth wards, two blocks of the street were graveled, some plowing and scraping was done on the hill, and what has it cost the city? The gravelling \$13.75; the scraping on that hill and the cleaning of the gutters has cost \$252.53; this does not include sewer pipe or lumber used on the street. We find in his general account the filling of a cistern of \$145.10; leveling cisterns, \$6.25; putting a cement walk over a cistern, \$38.50. I had supposed the filling of cisterns, formerly used for fire purposes, had been accomplished by contract outside of the street commissioner. But lately we have an item which as originally reported read: "Hauling seats from park, \$15.37." Since filing the report somebody has interlined the words, "and covering cisterns."

I have given these illustrations at length simply for the purpose of calling the voters' attention to the necessity of a change of street commissioner. We cannot do worse. Let us try the experiment of a new street commissioner, and I believe we can demonstrate that with Mr. Hanthorn as street commissioner much less than \$6,325.00 will keep our streets in a better condition than they have been during the last three years.

REPUBLICAN ALDERMEN.

The Men To Be Elected in the Several Wards To-morrow.

First Ward—S. TRULSON.
Second Ward—J. C. VANKIRK.
Third Ward—ISAAC C. BROWNELL.
Fourth Ward—J. C. VANKIRK.
Fifth Ward—A. E. RICH.
Mr. S. Trulson, of the first ward, has been engaged in mercantile business for the past twenty years or more; he enjoys the confidence of the entire community, and is recognized as honest and upright in all his dealings. There is every reason why
